## **DETAILED ACTION**

### ***Response to Amendment***

1. Claims 1 and 6 have been amended, none of the claims have been deleted and no new claims have been added. Hence, claims 1-13 are pending in the application.
2. The objection to the specification as set forth in the previous Office Action dated October 20, 2004 has been overcome by applicant's amendments and is now withdrawn.
3. The provisional obviousness double patenting rejection over copending Application No. 10/437,660 as set forth in the previous Office Action dated October 20, 2004 has been overcome by applicant's amendments to the claims and is now withdrawn.
4. The 102(b) rejections over Wick and Koeberle et al. as set forth in the previous Office Action dated October 20, 2004 have been overcome by applicant's amendments to the claims and are now withdrawn.
5. The 103(a) rejections over Iwamoto et al. and Guenthard as set forth in the previous Office Action dated October 20, 2004 have been overcome by the filing of the certified English language translation of the foreign priority document and applicant's amendments to the claims and are now withdrawn. A new rejection is entered below.

### ***Double Patenting***

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11

Art Unit: 1755

F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claims 1-13 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-15, 17 and 18 of U.S. Patent No. 6,846,351. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the present application overlap said patent claims and would be obvious thereby.
